

Sunstream

Solar is cheaper and better than electric geysers for heating water

Durable stainless steel tanks

Big 58mm tubes

Heat water from 25° to 65°C in just 4.5 hours *

Weather-protected structure

Benefits:

- ✓ Significantly reduces your monthly electricity bill
- ✓ Unique stainless steel body for excellent look and finish
- ✓ Thick stainless steel inner tank to handle hard water
- ✓ Superior insulation keeps water hot - high density injected PUF
- ✓ Optional electric back-up for cloudy days
- ✓ Three free preventive maintenance visits in first year

Sunstream

Sunstream	
To heat 100 litres to 65°C per day	
Sunstream Cost	Rs. 12.42 *
Electricity cost	Rs. 0
Total cost per day	Rs. 12.42 *

* Assumes price Rs.20,500 over 5 years and 330 sunny days per year

Geyzer	
To heat 100 litres to 65°C per day	
Geyzer cost	Rs. 3.50 *
Electricity cost	Rs. 18 **
Total cost per day	Rs. 21.50

* Estimate only. Assumes price Rs. 6500 over 5 years

** Estimate only. Assumes 4kWh per day, Rs. 4.5 per kWh

Models	Inner tank material	Outer tank material	Water hardness	Water capacity
Sunstream GV	SS-304 / 0.8mm	SS-430	Less than 200 PPM	100LPD, 150LPD, 200LPD
Sunstream GH	SS-304 / 1mm	SS-430	Less than 800 PPM	100LPD, 150LPD, 200LPD
